OUR PROMISE

We say only what the product can deliver, and we hold that promise long after the sale — **parts stocked before launch, a support line a person answers, and an engineer who shows up.**

— THREE PROMISES, ONE TELEVISION —

See it.

Every VOIR is QLED. A quantum-dot layer converts the backlight into purer red, green and blue — so **why QLED?** Colour stays true at full brightness, contrast holds in a sunlit room, and the picture ages far better than plain LED.

Quantum Color Optimizer

Wider gamut, tuned per scene so colour reads true, not loud.

Infinity Display

Edgeless bezel — the room reads the picture, not the frame.

Pixel Pure Panel

Every panel graded for uniformity, HD through 4K UHD.

PQx Pro Elite Suite

A stack of picture technologies working together for a richer, sharper image.

Love it.

Sound you feel across the room, picture that holds its depth, and a promise that still answers long after the sale.

Service and parts

A person on the line, an engineer who shows up, and spares stocked before launch.

Dolby Atmos Vision

Cinema-grade picture and sound, tuned to work together.

HomeSync

One screen. Every device. HomeSync puts your whole smart home at your fingertips.

Sound Spectre Power Boost

Richer bass, sharper highs, fuller sound. That's Sound Spectra Power Boost

Live it.

Living with a TV is different from owning one. It should wake up fast, put something on before you have finished sitting down, and still feel quick years into its life.

Quantum Core AI Processor

Memory headroom to spare, so year three still feels like year one.

SmartTap

Cast from your phone in a tap, over Wi-Fi or Bluetooth.

Google Assistant

Hold the voice remote and just ask — search, switch inputs, open an app.

Live TV, out of the box

Hundreds of live channels, with OTT apps preloaded out of the box.

The best brands aren't the loudest. They're the ones that keep showing up.

Every model is QLED. Here is what each one carries.

ZENITH SERIES

GOOGLE TV · QLED

55" VR55FLG14KQ

QLED
UHD

- ★ Quantum Core AI Processor
2 GB RAM / 16 GB ROM
- ★ Dolby Atmos · Vision
